Session Descriptions

Session	Title	Technologies	Session Description
1	User Stories	SP O365; Teams	Learn how other organizations are leveraging SharePoint and related technologies through peer presentations.
2.1	Market Trends and Forecast	SP on-prem & 365; Office 365	In this session, we'll look at the current state of SharePoint and Office 365, discuss emerging trends, and read the tea leaves on what we see the future holds for these platforms.
2.2	Power Platform Overview	Power Platform	In this session, we'll discuss the Microsoft Power Platform and its toolset, and the impact it can have to support the development of rich business applications.
3A	End User Adoption Tips and Strategies	SP On-Prem and SP O365; Teams	You had a great plan, a great design, and rolled out a beautiful intranet, but your adoption is low. Why? What can be done next to increase adoption and increase the value of the platform across the organization? We will discuss some of the common challenges and tips and strategies for increasing adoption within your organization.
3B	The Power of the Graph API	O365 (SharePoint, Teams, Planner, OneDrive)	In this session, we will be demonstrating the power of the Graph API. We will demo a SharePoint Framework (SPFx) App, that leverages the Graph API to create a new Team, custom tabs, Team Planner (Plan, Buckets, and Tasks), as well as other Office 365 content from SharePoint. We will jump into the code to get a better sense of implementation guidelines required to use the Graph API in your own apps. We will also get familiar with the Graph Explorer and review other valuable resources.
3C	Leveraging Office 365 and the Power Platform Part 1	Power Platform	In this first of a two-part session, we'll build out a sample business application using Microsoft SharePoint, PowerApps, and Flow, exploring features and options, and highlighting tips and tricks.
3D	Effective Leaders Build Trust	Leadership	Everyone is a leader. So what is needed to become an effective leader? Discover strategies to build trust, communicate effectively and have impactful meetings. Inspire trust by developing vision, building alignment and driving execution to bring exceptional results.
4A	Modern SharePoint Out-Of-The-Box Webparts Deep Dive	SP 2019 and SP O365	In this session, we will dive into creating an aesthetically pleasing Modern SharePoint site design using out of the box web parts. We will also show you ways to get the most out of the out-of-the-box web parts using lists, views, and filtering on the back end to create some basic automations.
4B	Advanced Flow Topics	Flow, SharePoint, SQL Server	In this session, we will demonstrate the power of Microsoft Flow, by building a flow that will use a data gateway to access On-Premise Information to Update a SharePoint List, (Add, Update, Delete). This flow will utilize, Data Gateway, Loops, filter arrays, and various Tips and Tricks that can increase your overall productivity using the flow editor as well as some advance flow structures and settings that can improve your flows performance.
4C	Leveraging Office 365 and the Power Platform Part 2	PowerPoint, SharePoint, Teams	In this second of a two-part session, we'll extend our sample business application using Microsoft PowerPoint, SharePoint, and Teams, exploring features and options, and highlighting tips and tricks along the way.
4D	Impactful Leaders Communicate	Leadership	Everyone influences others either in positive or negative ways. Discover keys to communicating with impact! Communication is key in creating trust and navigating healthy productive conflict. It's key to running effective meetings with buy-in...which leads to powerful results. Come prepared to learn new skills and be a part of an interactive session designed to help leaders communicate at a higher level.
